

01

RECEIPT OF PURCHASE ORDER

Order is entered into system.

“Welcome Package” is sent by a Project Coordinator.

Tentative installation date is set
(based on schedule and contingent upon milestones)

02

**1ST MILESTONE
COLLECT PROJECT
DETAILS**

Welcome Package documents are completed and returned by customer.

(ie. Network Info, Pre-install Questionnaire, Programming Matrix)

Test module is programmed and shipped to site.

ReesCloud node is created and configured with the info provided.

03

**2ND MILESTONE
TEST MODULE SETUP**

Customer receives test module.

Set-up module on site, then notifies the Project Coordinator to begin testing.

04

**3RD MILESTONE
COMMUNICATION TEST**

Confirm communication with module on site.

If the communication test:

PASSED:
The remaining modules on your order are programmed and shipped.

FAILED:
Your I.T. assistance will be required before proceeding.

05

**ALL SYSTEMS GO!
INSTALLATION**

Rees field engineers arrive on your installation date to complete the project.

For self-installations, customer can finish installing the remaining modules.
