Continuous Temperature Monitoring

Another improvement to our Wireless Family!

Z3 WiFi is our latest version of the WiFi system which provides a seamless user experience and protects critical information.

Z3 WiFi Benefits:

- * Same great reliability, security and flexibility as the Z3 Wireless System
- * Battery powered – outlets not needed
- * **Enterprise WiFi capable option (PEAP-MS-CHAPv2) - works with existing infrastructure**
- * Designed to reduce the overall installation process
- * Great for remote sites
- * Enhanced customer convenience and flexibility
- * Compatible with all existing Rees Systems
- * Works with the full line of Rees Scientific sensors

Come join the many that trust the security and flexibility of Z3 WiFi!
