## Continuous Temperature Monitoring

### Another Improvement to our Wireless Family!

Z3 WiFi is our latest version of the WiFi system which provides a seamless user experience and protects critical information.

#### Z3 WiFi Benefits:

- \* Same great reliability, security and flexibility as the Z3 Wireless System
- \* Industry's first IPv6 capable monitoring system
- \* **Enterprise WiFi capable option (PEAP-MS-CHAPv2) - works with existing infrastructure**
- \* Designed to reduce the overall installation process
- \* Great for remote sites
- \* Battery powered – outlets not needed
- \* Enhanced customer convenience and flexibility
- \* Compatible with all existing Rees Systems
- \* Works with the full line of Rees Scientific sensors

## Z3 WiFi is the leader in security and flexibility!
