

Innovation through Automation

Wireless Monitoring... has evolved!

With our next generation V.2 Wireless modules, you can now have it all - data reliability, robust security, wireless flexibility and the expertise and support of the industry's premier provider of Environmental Monitoring Solutions.

Advantages of Wireless Monitoring -

Eliminate Wiring -Save Materials and Resources

Easily Relocate Equipment Quick and Clean Installs Flexibility

V.2 offers -

Data Buffering at Transmitter Level
Battery Alarm
Reliable Two-way Communication
Self-healing Mesh Networks
Compatible with Existing Sensors
and Rees Hardware
